- ✓ OCR data input
- ✓ page assembly
- ✓ PDF enhancement
- ✓ photo retouching/restorations
- ✓ proofreading
- ✓ publication planning
- ✓ templates
- ✓ web development

Digital Printing

Enjoy the enhanced quality of direct printing the quantities you need. Use on-demand for mock-ups, market testing, reducing inventory, personalization, current reports and reducing risk. Once the editing and formatting is done a book can be in your hands in a week. All PageMaster’s production printers have duplexing ability, minimizing collation and handling.

Two production level digital colour printers handle up to 12”x18” (HP 8500dn, Xerox 7700). For flyers and newsletters we utilize our Riso GR3750 with spot red and blue available.

Current b&w capacity is 100 letter pages/minute distributed over three 11.7”x17.7” production printers (HP 8150dn, HP 8100dn, Mita 3600dp). For multiple copies of one original our Riso digital duplicator shines at 130 ppm

House stocks include Husky 20# bond, First Choice Ultra White 24#, Lynx Opaque 70#, Hammermill Fore MP 20# colours (Goldenrod, Green, Grey, Canary, Ivory, Pink), Cornwall digital 8 and 10 point cover, Opus 80# cover (glossy both sides) and Luna gloss.

PDF is the preferred file format for documents ready to print. We work primarily on the PC platform: InDesign (2), PageMaker (7), CorelDraw (10), Illustrator (10) and PhotoShop (7).

Text documents are preferred in RTF. For vector graphics, send eps, ai or cdr. Photos and scans in tiff or jpg. Use 225 dpi for halftones.

We also have a print driver available to create PDF files on the internet directly from your computer – e-mail for details.
